ONLINE STUDENTS' EVALUATION OF TEACHING AND COURSE

As part of quality assurance measures for continuous improvement, the **Directorate of Quality Assurance and Promotion** will be conducting an online evaluation of teaching and course to obtain your feedback. The exercise forms part of GCTU's regular effort to maintain the quality of instruction, improve students' learning experience and promote quality education. Your honest and thoughtful evaluation would help us achieve the above goals. The exercise also presents an opportunity for you to check and validate the courses registered for the semester and report any course duplications including other course registration errors which often affect the uploading of grades by lecturers.

The exercise is scheduled for **Monday 18th – Sunday 24th September, 2023** and all **undergraduate (Diploma/Bachelor's degree) students** of GCTU, who have duly registered their courses, attending lectures and preparing for the upcoming End of Second Semester Examination are encouraged to actively participate. The questionnaire will be available online on the **Student Information Portal (SIP)** on the **18th of September, 2023**.

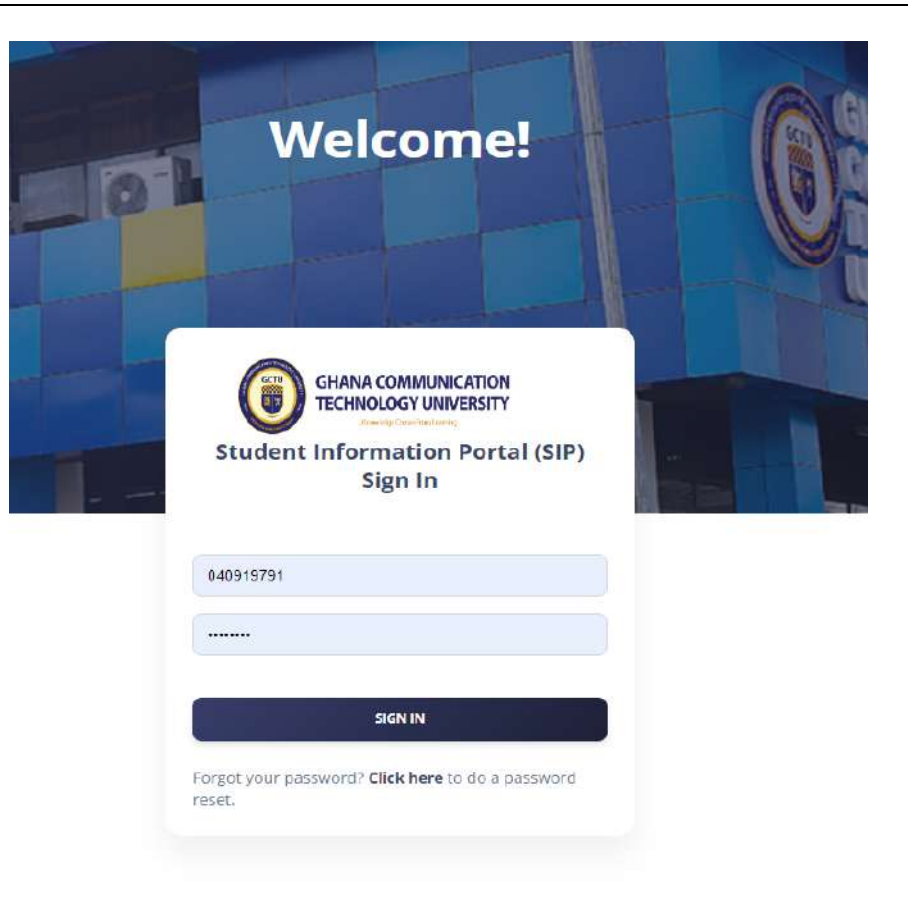

All students are encouraged to log into their Portal within the period (**18th – 24th September, 2023**) to evaluate each course. **The questionnaire will not be accessible after the midnight of 24th September, 2023 to pave way for Revision week.**
